

PATFix v2.0 for DOS

Program Description	<p>PATFix is a program that allows a knowledgeable user to swap the active FCR and PAT pages in an existing Btrieve file with their shadowed equivalent.</p> <p>PATFix thus allows you to “fix” corruption caused by a database crash when using the Win32 Btrieve 6.15 workstation engines before 6.15.451. (Only older versions of the Win32 Workstation Engine and WinNT Server Engine have this problem.)</p>
Platform and Package	DOS; Btrieve Administrators Recovery ToolKit
Pricing	\$10 Shareware
Command Line Syntax and Help Screen	<p>PATFIX Version 2.0: 05/30 (C)2003 Goldstar Software Inc.</p> <p>This utility corrects corrupted PAT Usage Counters in Btrieve Files. See the accompanying README.TXT file for more information.</p> <p>Usage: PATFIX <FileName> [/D] <FileName> is file to process. /D indicates full debugging mode.</p> <p>This is a SHAREWARE release of PATFIX. The registration fee is only \$10 US per site. Registering PATFIX will provide additional technical support on Btrieve databases via E-mail. To register, send your \$10 check to: Goldstar Software Inc. 3007 Carmel Drive Flossmoor, IL 60422-2262</p> <p>For distribution information or access to source code, contact Bill Bach at the above address, via phone at 708-647-7665, or via E-mail at BillBach@GoldstarSoftware.com.</p>
Examples and Sample Usage	See the accompanying README file for a better description of the PATFix problem and how to avoid it in the future.
Other Information	<p>PATFix is part of the Btrieve Advanced Recovery Toolkit.</p> <p>A Win32 version is available as part of the BART Toolkit.</p> <p>For more information on these utilities contact us at www.goldstarsoftware.com</p>
Version History	<p>Version 1.6: First documented version.</p> <p>Version 2.0: Added capability to access 7.x and 8.x files.</p>
Known Problems	<p>Please note that PATFix does NOT fix the data file – it merely allows a better chance at recovering more data. You MUST have a backup before using this utility on your databases, as it may make the data completely unusable.</p> <p>PATFix is only valid when used on Btrieve 6.x, 7.x, and 8.x file formats. For better support, get the current BART Toolkit, which includes the Win32 version of PATFix.</p>
