## PeachTree Database Access Disclaimer

I, \_\_\_\_\_, the duly-authorized principal of \_\_\_\_\_, acknowledge and understand that the PeachTree Accounting 2007 (or higher) application uses Pervasive PSQL v9.1+ (or higher) database engine, which also comes with a complete SQL/ODBC engine suitable for data access from a variety of tools.

I also acknowledge and understand that Sage Software has locked down access to my accounting data because allowing ODBC access can be dangerous in that it could lead to the loss of data and other problems as well as because it compromises ALL accounting controls, as I can then directly update ANY value in the database, leaving the door open for possible **accounting abnormalities**.

Further, I understand that the Sarbanes-Oxley Act and other laws, rules, and regulations provide for possible **criminal and/or civil liability and penalties** against a public company official for such transgressions, and that Sage Software has attempted to protect me from such transgressions with their security implementation.

Finally, I understand that Sage Software provides a freely available Software Developers Kit which provides for "proper" access to my PeachTree database for application developers, but I am unable or unwilling to use this tool.

Given the above, I still request direct ODBC access to my PeachTree data irrespective of these protections. I am submitting my data files and authorize Goldstar Software Inc. to bypass the existing security controls and provide me with the access option(s) selected below:

(Both username and password can be up to 8 characters in length.)

- Read Only Access User Name: (User/Password: \_\_\_\_\_ / \_\_\_\_\_)
- Full (Read/Write) Access User Name (User/Password: \_\_\_\_\_ / \_\_\_\_\_)
- Complete (Master) Database Access User Name and Password

I acknowledge that the databases submitted are entirely my own, that I have the full legal right to access the data inside the database, and that I am not requesting this service in order to commit a criminal act or to perpetrate a civil fraud. **I hold Goldstar Software Inc. harmless with respect to the data or its subsequent use, modification, or destruction and hereby release Goldstar Software Inc. from any and all liability and/or damage resulting from Goldstar Software Inc. performing the service I have requested.**

Signed: \_\_\_\_\_ Company: \_\_\_\_\_

Printed Name: \_\_\_\_\_ Title: \_\_\_\_\_

I, the undersigned, am an additional duly-authorized principal of the above company, and I concur with the above signed principal to allow access to the PeachTree Accounting database.
